Education Experience Health Requirements

Name _____ Date of Birth _____

Department _____

In order to meet the requirements of the Center for Disease Control, OSHA, the Department of Health, and Wheaton Franciscan Healthcare, the following information is required:

- TB Skin Test**
THIS MUST BE COMPLETED PRIOR TO YOUR START DATE!
Two tests are required to be given and read. Only one will be given if you can provide documentation of having received one **within the past year**. If you have had a past positive test, please provide a copy of your last chest x-ray. This must have been done within the last 6 months.
- Hepatitis B Vaccine**
Your department requires documentation of dates or a positive Hepatitis B Surface Antibody Titer can be provided.
- Measles (Rubeola)**
Proof of immunity by lab testing or documentation of (2) immunizations is required.
- German Measles (Rubella)**
Proof of immunity by lab testing or documentation of (2) immunizations is required.
- Mumps**
Proof of immunity by lab testing or documentation of (2) immunizations is required.
- Chicken Pox**
Vaccination documentation is required or your written statement of having had the disease. If unknown, a lab test can be ordered.

Please call the Associate Health and Wellness Office at (319)272-5030 with any questions. Hours are 7:00 – 4:00. Good resources for documentation of vaccination are your previous high school (or elementary), doctor’s office, OB-GYN doctor (for rubella titer results), college student health center, passport immunization record, or any health care center you worked for.
