

## Objective #1

Gain increased awareness of general health care and how to apply it to your life and work.

- *Informational meetings to ALL employees (families optional) to communicate the overall concept, plan of action, expected results, and benefits to participating.*
- *Written communication pieces can be created for various marketing and health education purposes.*
- *Clinical advisor is available to meet with your wellness committee to provide clinical guidance and share best practices.*
- *Bi-annual Wheaton Franciscan Healthcare hosted luncheons for our Partners in Health. Best practice ideas are shared along with new innovations in health care. Introduction to new providers and services are also made upon availability.*
